2019 - present	Criminology and Globalization	Lecture	BA	50
2019 - present	Scientific thought	Course (Mandatory)	MA	60
2018-2020	Group intervention	Workshop	BA	21

## 13. Miscellaneous

Ever since I finished my Doctoral studies I have been concentrated in ameliorating my skills in scientific writing and in research conduction.

Since my scientific interest is divided into several issues and has been developing during the years, I have joined some research institutes, that address my interest in these fields: child and adolescents in neglect and delinquency, criminality prevention and reduction from an economic aspect and conflict, violence and reconciliation between different social groups.

To summarize, most of the studies that I took a part in their conduction are aiming to deliver results that might contribute to the knowledge in criminology and social sciences, and

specifically, in terms of crime, society and violence reduction and prevention. That direction led me to maintain working relations with colleagues from other fields, these contacts help me in achieving my goals.

These days I am writing with a colleague from Bar Ilan University a research grant proposal that addresses my main issue in conflict, violence and reconciliation between different social groups and I also continue in writing papers that are based on data bases, which address my research fields.

#### **14. Professional Experience**

2005-2009	A spoke-person for the Israeli police force
2001-2005	A teenagers and youth criminologist in 'Shushan project' for juvenile delinquents ex-prisoners rehabilitation – operates within A state rehabilitation center
2000-2002	A social guide in Zofia center to female juvenile delinquents
2000-2002	An intervention guide in 'Kidum Noar' in Tel aviv
2000- 2014	A group intervention mentor for 'at risk youth' in schools and boarding schools
2019-present	A cognitive behavioral therapist and schema therapist.

#### **15. Summary of my Activities and Future Plans**

As an academic researcher and lecturer, my interest is focused in two main fields of research; the first is the examination of possible methods that would lead to reconciliation between social groups and the other field addresses the way to achieve crime reduction and prevention in the social groups' and in the organization level.

Also, In order to promote the activity in tutoring Criminology, for the past years, I encourage my students to practice in a field work with criminals and victims in rehabilitation centers and facilities, my seminar students are obligated to do so, if they are interested in taking my non empirical seminar. This instruction facilitates a better understanding of criminal behavior and therefore is considered by me as a part of teaching Criminology.

In Addition, In order to advance the production of innovative knowledge in those fields, I work with researchers from different colleges and University in Israel and I am also a member in "The research institute of the Galilee" and in a research group that was recently established by colleagues from different areas of knowledge in the Western Galilee Academic College and in 'The research institute of economics, society and peace in the middle east'. All these institutes are operating in the Western Galilee College. These days I am writing with a colleague from Bar Ilan University a research grant proposal that addresses my main issue in conflict, violence and reconciliation between different social groups and I also continue to write papers that are based on data bases that address my research fields.

## Publications

Limor Yehuda Ph. D

### (\* publications since last promotion)

#### A. Articles in Refereed Journals Published

1. Yehuda, L., & Wolf, Y. (2019). Exploratory experiment of violence perceptions among Jewish and Arab juvenile delinquents. *Israeli Criminology*, 30-53. (Peer reviewed journal, with no impact factor – EXISTS IN THE MALAG LIST)
