Curriculum Vitae

1. Personal Data

Name in Hebrew: פרופ' קשת יעל
Name in English: Keshet Yael, Prof.
E-Mail: yaelk@wgalil.ac.il

2. Education Certificates and Degrees

Education	Institute	Department	From - To
First Degree	Ben Gurion University	Dep. of Biology	1983-1986
Second Degree	University of Haifa	Dep. of Sociology and Anthropology	1997-2000
Third Degree	University of Haifa	Dep. of Sociology and Anthropology	2001-2006

3. **Title of Master's Thesis:** Complementary medicine discourse as an alternative culture

Supervisor: Prof. Nurit Bird-David

Title of Doctoral Thesis: Knowledge in the medical discourse: Healing and therapeutic efficacy of complementary and alternative medicine

Supervisor: Prof. Yuval Yonay

4. Academic Ranks

Rank	% Position	From - To	Institute
Associate Professor	100	07.06.2015 – current	Western Galilee College
Senior lecturer	100	01.02.2011– 07.06.2015	Western Galilee College

5. Supervising Graduate and Post-Graduate Students

Names of Doctoral Students (supervised by the lecturer)

Name of Student	Year of Completion	Co-Supervisor
Maya Ronen	Still writing	Prof Ruth Kats

6. Grants and Awards

Year	Name of Grant/Award
2007	Excellent lecturer, Western Galilee Academic College
2012	Nominee for the SAGE Prize for Innovation and Excellence
2013	Award - excellence in research, Western Galilee Academic College
2015	Award - excellence in research, Western Galilee Academic College
2017	Award - excellence in research, Western Galilee Academic College
2019	Award- excellence in research, Western Galilee Academic College
2020	Award - excellence in research and teaching, Western Galilee College

7. Research Grants

From-To	Funding Agency	Title of Research	Amount	Names of Research Partners
Nov 2016 – May 2018	NIHP	Policies that address ethnic tensions and racism directed at Arab medical personnel in health organizations in Israel	126,379 NIS	Dr. Ariela Popper-Giveon

8. Active Participation in Conferences (Only from 2001)

International Conferences

Date	Name of Conference	Place of Conference	Subject of Lecture/Discussion
September, 2012	The British Sociological Association, Medical Sociology Group 44th Annual Conference	Leicester, UK	Energy medicine: proposing the concept of hybrid knowledge
August, 2014	European Society for Health and Medical Sociology	University of Helsinki, Finland	Intersectionality and underrepresentation in the medical profession: The case of Arabs in Israel
July 2015	International Conference Recanati Business School	Tel-Aviv University Israel	Women Empowerment and the Use of New Age Language at Work - 8th Equality, Diversity and Inclusion

Date	Name of Conference	Place of Conference	Subject of Lecture/Discussion
August 2015	12th Conference of the European Sociological Association	Prague	Ethnicity, gender and health professions: the Arab minority in Israel
July, 2016	Third ISA Forum of Sociology	Vienna, Austria	Ethnic Diversity within Israeli Healthcare Organizations: Manifestations of Racism and Strategies of Coping
July, 2017	The 10th International Critical Management Studies (CMS) Conference	Liverpool, UK	Women's Use of New Age language at work
August 2019	The 14th Conference of the European Sociological Association	Manchester, UK	Post-Trauma: Healthcare Practitioners' Social Media Use during Times of Political Tension
August 2019	The 14th Conference of the European Sociological Association	Manchester, UK	The Secret Drama at the Patient's Bedside—Refusal of Treatment Because of the Practitioner's Ethnic Identity
August, 2020 Due to the Covid-19, the conference has been postponed to February 2021	European Sociological Association ESA RN16 MidTerm Conference	Kraków, Poland	Vaccination public discourse and religious authority: The case of non-vaccinating ultra-orthodox Jewish mothers in Israel

Local Conferences

Date	Name of Conference	Place of Conference	Subject of Lecture/Discussion	Role
2004	The conference: "Science, technology, society and culture", Science, technology and the politics of knowledge	Midreshet Sde - Boker	Social construction of medical knowledge: the dispute over the research of the efficacy of complementary and alternative medicine	
2005	The Association for the Study of Language and Society		Energy as key term in the complementary and alternative medical discourse	
2006	The Annual Israeli Sociological Conference: to be a minority in Israel: A Comparative View	University of Haifa	Being a professional medical minority in Israel - Bio - Medicine and Alternative Medicine	

Date	Name of Conference	Place of Conference	Subject of Lecture/Discussion	Role
2006	the Annual Israeli Sociological Conference	University of Haifa	Professional struggles and informed ability to choose complementary medicine treatments	
2008	Lecture at the annual Israeli anthropological conference	Beit Berl	Knowledge and professional struggle: complementary medicine and control over the profession	
2008	The 39th Annual Conference of the Israeli Sociological Society	Tel Aviv University	Integrative medicine: constructing formal knowledge	
2009	Lecture at contemporary spirituality	University of Haifa	Spirituality at the threshold – Israeli physicians integrate complementary medicine	
2009	Annual conference for information	sciences, Beit Berl College	Sociology of knowledge and the question of complementary and alternative medicine efficacy	
February, 2010	The annual Israel Sociological Association conference	Western Galilee Academic College	Bio-medicine, complementary medicine and folk-traditional medicine in the Galilee: Attitudes and usage	
February, 2010		Tel-Aviv-Jaffa College	Complementary medicine and re-enchantment of the world	
February, 2010	Conference	Oranim College	Medical pluralism in the Galilee	
February, 2010	The fourth annual conference of the Israeli center for qualitative research	Ben Gurion University	Researching physicians: powerful research participants	
March, 2010	The annual conference of current spirituality research	University of Haifa	'So what Did You Take from the Conference within Your Non-Dominant Hemisphere? Physicians promote integrative medicine in healthcare organizations	
February, 2010	ESPANET: Social policy in Israel, research, theory and practice	Emek Yezreel College	Policy towards complementary medicine in the internet mirror	
February, 2011	ICQM – Israeli Center for Qualitative Research of People and Societies	Ben-Gurion University	Integrative medicine and Arab traditional medicine	

Date	Name of Conference	Place of Conference	Subject of Lecture/Discussion	Role
February, 2011	The 11th annual conference of the Association for History and Philosophy of Sciences	Jerusalem	Response. Session in honor of Yael Keshet's book	
March, 2012	The 4th Israeli Conference for the Study of Contemporary Spiritualities	University of Haifa	Can holism be practiced in a biomedical setting? A qualitative study of the integration of complementary medicine to a surgical department	
November, 2012	The Israeli company of complementary medicine conference	Tel - Aviv	Can integrative medicine thrive in the public health system? Or – Is complementary medicine only for the rich population?	
May 2013	The annual conference of current spirituality research	University of Tel Aviv	Secular and traditionalist Israelis consulting rabbis	
June, 2013	ICQM – Israeli Center for Qualitative Research of People and Societies	Ben-Gurion University	Analyzing short narratives: the case of integrative medicine in oncology and surgery	
February, 2014	The annual Israel Sociological Association conference	Tel Aviv University	I am the First Druze Woman to Have Studied Chinese Medicine: Complementary Medicine as a Path towards Empowerment of Arab-Palestinian Women in Israel	
February 2014	The annual Anthropological Association Conference	Jaffa	Ethnic diversity and cultural competence: Arab physicians in the public healthcare system in Israel	
February, 2014	ICQM – Israeli Center for Qualitative Research of People and Societies	Ben-Gurion University of the Negev	Theoretical innovation, grounded theory and abductive approach: integrative complementary medicine in an Israeli hospital	
June, 2014	Braun School of Public Health and Community Medicine	Hebrew University – Hadassah	Intersectionality and underrepresentation in the medical profession: Arab physicians in Israel	An invited lecture
February, 2015	The annual Israel Sociological Association conference	Kinneret Academic College	Intersectionality and underrepresentation in the medical profession: Arab physicians in Israel	

Date	Name of Conference	Place of Conference	Subject of Lecture/Discussion	Role
February 2016	ESPAnet Israel conference	University of Haifa	Gander & ethnicity in health professions: Employment work perceptions among Arab professionals in Israel	
February, 2016	The annual ESPAnet conference	University of Haifa	Arabs and Jews in the Israeli medical sector: Challenges for coexistence and Policy	Head of a Chair
February, 2016	ICQM – Israeli Center for Qualitative Research of People and Societies	Ben-Gurion University of the Negev	The contribution of qualitative research to expose silenced phenomena – race-based experiences of Arab health professionals in Israeli public healthcare organizations	
June, 2016	Sociological Association, annual conference	Kinneret Academic College	The white coat trap: Pharmacy as an ethnic-dominated occupation in Israel	
May, 2017	The Israel National Institute for Health Policy Research, annual conference	Tel Aviv	Neutrality in medicine and health professionals from ethnic minority groups	
May, 2017	Anthropological Association, annual conference	Kefar Kasem	Between academic work and social activism in a sensitive and silent arena	
February, 2018	ICQM – Israeli Center for Qualitative Research of People and Societies	Ben-Gurion University	The question of policies that address ethnic tensions and racism directed at Arab medical personnel in health organizations in Israel	
February, 2018	ICQM – Israeli Center for Qualitative Research of People and Societies	Ben-Gurion University	Between the personal and the political in medical organizations	Head of a Chair
February, 2018	Sociological Association, annual conference	Ben-Gurion University	Refusal of Treatment Because of the Practitioner’s Ethnic Identity	
January, 2019	The Israeli Sociological Society	University of Haifa	Requests for Ethnic Separation in Hospitalized Hospitals in Israel: The Perspective of Patients and Caregivers	
January, 2019	The Israeli Sociological Society	University of Haifa	Policy on the Use of Social Networks in Health Organizations in Israel	

Date	Name of Conference	Place of Conference	Subject of Lecture/Discussion	Role
January, 2019	The Israeli Sociological Society	University of Haifa	Professions - Health professionals: behaviors and coping	Head of a Chair
June, 2019	Research conference	Emek Yezrael College	From academic research to policy: What do you do when a patient refuses treatment because of the practitioner's ethnic identity?	

Organization of Conferences or Sessions

Date	Name of Conference	Place of Conference	Subject of Lecture/Discussion	Role
2015	The Israeli Sociological Conference	Kinneret Academic College		Member of the organizing committee
2018	ICQM – Israeli Center for Qualitative Research of People and Societies	Ben-Gurion University	Between the personal and the political in medical organizations	Organization of Session
2018	The Ninth Israeli Conference of the Study of Contemporary Spirituality	University of Haifa		Member of the scientific organizing committee

Invited Lectures\ Colloquium Talks

Date	Name of Conference	Place of Conference	Subject of Lecture/Discussion	Role
October, 2015	National Insurance Institute of Israel	Jerusalem	Arab professionals in health and welfare organizations	Invited lecture
October, 2015	Anthropology department	University of Haifa	Aras healthcare professionals in Israel	Invited lecture
2018	Ministry of Health - Committee for the Prevention of Racism in Health Organizations	Jerusalem	Policy on ethnic tensions in health organizations	Invited lecture
August, 2019	Researchers' meeting	Manchester, UK	Develop research cooperation and work together on the proposal for the Horizon 2020 grant.	
October, 2019	Horizon Europe Weeks	Niepolomice, Poland	Intensive 3-day workshops in the conference facility near Kraków, to develop research cooperation and work together on the	Researcher

Date	Name of Conference	Place of Conference	Subject of Lecture/Discussion	Role
January, 2020	Sociological forum	University of Haifa	proposal for the international research grant. Regardless of religion or race: Ethnic tensions between Jews and Arabs in the Israeli health system.	

9. Positions Held

From-To	Institute	Position	% Position Position
2018 - 2020	Western Galilee Academic College	Head of Sociology department	
2018 - current	Western Galilee Academic College	Head of Health and Wellnes studies	
2015 - current	Western Galilee Academic College	Assoc. Prof.	100%
2016 - 2017	University of Haifa	Assoc. Prof.	20%
2015 - current	The Max Stern Academic College of Emek Yezreel	Assoc. Prof.	30%
2011-2015	Western Galilee Academic College	Senior lecturer	100%
2011-2015	The Max Stern Academic College of Emek Yezreel	Senior lecturer	25-40%
2010-2018	Western Galilee Academic College	Head of Health and Wellnes studies	
2010-2011	Western Galilee Academic College	Head of Information Studies department	
2007-2008	Western Galilee Academic College	Acting head of Sociology department	
2004-2011	Western Galilee Academic College	lecturer	100%
2004-2006	University of Haifa	Lecturer	20%
2002-2011	The Max Stern Academic College of Emek Yezreel	lecturer	25-40%

10. Additional Professional Experience (Public Positions)

1985-1990 Researcher, Arava R&D, Research and Development, Southern Arava, agriculture.

11. Scientific Areas of Specialization

- Sociology of medicine
- Medical anthropology
- Qualitative research
- Sociology of medical organizations
- Sociology of medical knowledge

12. Miscellaneous

2017 – GCP – Good Clinical Practice training – Attended the course of Design, performance and regulatory of clinical trials.

2020-2023 – An Advisory Board Member of the project VAX-TRUST in the EU Horizon 2020 program Addressing low vaccine uptake (ID: SC1-BHC-33-2020): 2,971,675.00 EUR.

13. Member of Committees

2021 - current	Western Galilee Academic College	Member of the Committee for the Reduction of Teaching Duties
2018 - current	Western Galilee Academic College	Higher Academic Council Member
2018 - current	Western Galilee Academic College	Ethics in Research committee member
2016 - 2018	Western Galilee Academic College	Teaching Committee advisor member
2012 – 2018, and current	Western Galilee Academic College	Teaching Committee member (Sociology department)
2012 - 2013	Western Galilee Academic College	“Excellence in research” committee member
2008 - 2011	Western Galilee Academic College	Member of Research council

14. Member of professional associations

2015 – Current, Member of the European Sociological Association.

2015 – 2018, Member of Israeli Anthropological Society.

2007 – Current, Member of the Israeli Sociological Society.

2014 – Member of the European Society for Health and Medical Sociology.

2008 – 2014, Member of the Israeli Medical Association, the Israeli Society for Complementary Medicine.

2012 – Member of the British Sociological Association.

I have peer reviewed articles for the following international journals

Social Science and Medicine, Journal of Interprofessional Care, Health: (London): An Interdisciplinary Journal for the Social Study of Health, Illness and Medicine, European Journal of Integrative Medicine, Complementary Therapies in Medicine, Patient Education and Counseling, Journal of Immigrant and Minority Health, Harefuah and more

I have peer reviewed doctoral research proposals and dissertations

University of Haifa 2014, 2018.

I have peer reviewed research proposals for the following international research funds: BSF – United States-Israel Binational Science Foundation

15. Academic Profile

Research Activities

Throughout my academic career, my main interest and focus has been on taking an interdisciplinary approach and addressing the interface between Natural and Social Science; and more specifically, to focus on the social and cultural aspects of health care. My undergraduate degree in biology established my area of interest, and advanced degrees in anthropology and sociology have led me to focus on the fields of medical anthropology and the sociology of medicine. Since the completion of my doctoral dissertation fourteen years ago, I have published more than 65 papers in refereed journals, and have written three chapters in scientific books and authored two books.

A major research topic of mine is integrative medicine, namely the integration of complementary and alternative therapies in healthcare and health organizations. I joined a group of physicians who work in hospitals and health maintenance organizations, where they have introduced and are researching integrative medicine. We have jointly conducted several studies at the Lin Medical Center and Bnai-Zion hospital, funded by the respective health organizations.

A second major research project I conducted with a colleague (Prof. Ariela Popper-Giveon) was the study of ethno-national tensions in health organizations between Jews and Arabs, and the relevant ways to address it. We received a grant from The Israel National Institute for Health Policy Research, and conducted a survey and 50 in-depth interviews. We have published a number of articles on the research findings, and a book was published this year. I endeavor to conduct research that not only contributes to scientific development, but that is also applicable and contributes to patients' welfare and to health-care professionals by impacting health-care policy and students' education.

Another research subject focuses on patients' health-related decision-making processes (HDP), concentrating on the sociological aspects of decisions made by parents regarding vaccination of their children. The findings will enable us to pinpoint how, why, and when the social environment triggers and shapes individual HDP.

I have joined a research network that took up the HORIZON 2020 call of "Addressing low vaccine uptake." The call is for proposals to analyze the causes and motives for people's opposition and hesitancy toward vaccination and to design and test interventions to improve vaccine uptake. I believe that the issue of vaccine resistance, and particularly that of vaccine hesitancy, is very relevant to health policies and offers an intriguing opportunity to study the social and cultural context of HDP. The research network now comprises scholars from the UK, the Czech Republic, Belgium, Italy, Finland, Portugal, and Poland. Israel as an accompanying country was part of the research network. Now my role in the group is external advisory board member. The research network awarded from the HORIZON 2020 – the EU Research and Innovation programme 2,971,675.00 EUR for the years 2020-2023.

Teaching Activities

I teach diverse courses in the Sociology Department – from introductory courses to research seminar courses. In recent years I have established and run a program that specializes in the field of health and well-being as part of the existing sociology program of undergraduate studies. Studies of health and wellbeing provides graduates with basic knowledge and practical experience in issues relating to the social and cultural components of work in health organizations.

The program seeks to provide students who work, or intend to work, in health and wellbeing organizations with a sociological and anthropological education, and endows them with applied skills of structural-social and cultural competence. It seeks to promote the receptiveness, knowledge, and skills that make for cultural competence. Cultural competence among practitioners facilitates a response that is compatible with the applicant's culture. Studies have shown that treatment given to a patient by a practitioner who is familiar with his or her culture and customs is more effective and beneficial.

The program furthermore seeks to impart awareness, knowledge, familiarity and skills that promote structural-social competence. Structural-social competence is a conceptual and applied framework for social factors that strongly influence the health and the welfare of individuals, such as socioeconomic status and poverty, environmental quality, stigmatization, sexual orientation, ethnic tensions, and immigration. This approach places emphasis on recognition of the economic and political conditions that generate social injustice and inequality in health.

These topics are becoming increasingly important and internationally recognized as developments in epigenetics and neuroscience reveal the vital roles that social contexts may play even in seemingly purely biological diseases. To the best of my knowledge, our program is the only one in Israel that has been designed to focus on sociological and anthropological perspectives on health and wellbeing.

Future Research Plans

My future research plan is to study decision making in healthcare, which is essentially a social process since such decisions take interpersonal and social contexts into account, and their outcomes impact others besides the patient(s) they address directly. Extensive research has been conducted on the processes involved in decision making, but has largely neglected the relevant social context.

I will continue my involvement with the European research network that awarded the grant from the EU Research and Innovation programme – 2,971,675.00 EUR for the years 2020-2023 on the issue of Addressing low vaccine uptake.

I plan to continue my research collaborations with integrative physicians to study the impacts of the integration of complementary medicine modalities at the Oncology department at Lin Medical Center and at several departments at the Bnai-Zion hospital.

Another planned research, together with my colleague, is to study the socio-cultural aspects of metaphors used to describe COVID-19 and to examine the role of these metaphors in adherence and non-adherence to public health regulations issued in Israel during the pandemic by comparing non-adherents (including corona-deniers) to a control group of people who report adherence to the public health regulations. A research proposal was submitted to ISF.

Publications

Prof. Yael Keshet
