Supervisor: Dr. Ofer Bergman

4. Scientific Areas of Specialization

Information Specialist, Librarianship, Internet Privacy, Personal Information Management, Group Information Management

5. Academic Profile

My area of expertise is Personal information management. My doctoral dissertation deals with the impact of workload on data retrieval, comparing two methods of files sharing - Personal Information Management and Ggroup Information Management. Which method is more vulnerable to load effect and what coping strategies can mitigate its negative impact. The study was funded by the Israel Science Foundation. The research has a theoretical contribution and practical implementations for organizations that tend to grow over time. Recently I published a paper on information loss from employee's perspectives after they just experienced a malfunction on their outlook accounts.
